Understanding Your Divisional Charts

Divisional Charts (Vargas) — Specialized Lenses. Each divisional chart magnifies one life-area:

D2 (Hora): Examines wealth, financial inflows, and resource accumulation. Sun's hora shows masculine/dynamic income; Moon's hora shows feminine/receptive income. Strong placements here indicate wealth potential beyond what D1 alone shows.

D3 (Drekkana): Reveals siblings, courage, and short journeys. Mars and the 3rd house in D3 indicate sibling relationships and personal valor. This chart also relates to longevity assessment.

D7 (Saptamsha): Specialized chart for children, progeny, and creative output. The 5th house and Jupiter in D7 reveal the karmic relationship with offspring and creative manifestation.

D9 (Navamsha): The most important divisional after D1 — reveals marriage, spouse character, dharmic destiny, and the inner self that emerges after age ~30. Strong D9 lagna = strong dharma.

D10 (Dashamsha): Specialized for career, public position, and professional achievement. The 10th house in D10 shows the specific domain of professional flowering.

D12 (Dwadashamsha): Reveals parental influences, paternal lineage, and inherited tendencies. The 9th house (father) and 4th house (mother) in D12 give deep insights into ancestral patterns.

Yoga Analysis

Planetary Combinations & Their Effects

	Raja Yoga ★ Venus Venus lords both a kendra and a trikona house, creating Raja Yoga. Confers authority, status, leadership, and recognition in society. POWER VERY STRONG
	Gajakesari Yoga ★ Jupiter, Moon Jupiter (H₃) sits in the 1th house from Moon (H₃) — a kendra relationship. Blesses with intelligence, fame, prosperity, and good fortune. One of the most auspicious yogas in Vedic astrology. AUSPICIOUS STRONG
	Stellium in 3th House ★ Moon, Jupiter, Saturn Three planets (Moon, Jupiter, Saturn) concentrate in the 3th house (siblings, courage, communication). This intense focus amplifies the matters of this house — a major karmic theme runs through this domain. The dashas of these planets will all activate similar themes. STELLIUM STRONG
	Moon-Jupiter Conjunction ★ Moon, Jupiter Moon and Jupiter together in the 3th house create emotional wisdom and prosperity; nurturing intelligence; supports counseling and education. CONJUNCTION PRESENT
	Vesi Yoga ★ Sun, Mars Mars in 2nd from Sun creates Vesi Yoga. Grants eloquence, financial acumen, and good memory. SOLAR PRESENT

Kemadruma Bhanga (Cancelled Kemadruma)

★ Moon

Technical Kemadruma is present (no planets in 2nd/12th from Moon), but it is CANCELLED because: Moon is conjunct Jupiter, Saturn. This conversion often produces auspicious results — challenges become stepping stones to elevation.

AUSPICIOUS

CANCELLED
(POSITIVE)

Understanding Yogas

A yoga's full effect manifests during the Mahadasha of the yoga-forming planets. Multiple yogas reinforce each other. The Lagna lord's strength determines overall expression. Doshas, when cancelled by mitigating factors, often convert to auspicious outcomes (bhanga).

Lagna Analysis

Kumbh Lagna

Kumbh Ascendant. Kumbh Lagna shapes your core nature. This is the foundation through which all other planetary energies in your chart express themselves.

Birth Nakshatra: Moon sits in Ashwini (deity: Ashwini Kumaras (divine healers)). The signature notes: pioneering, energetic, fast learner and healer's instinct. By nature, the native is bold and impulsive. Strong charm comes with a streak of impatience. Natural leadership in new ventures is part of the nature. This nakshatra colors your mental and emotional makeup throughout life.

Ascendant: Kumbh 20° 04' 20" • Nakshatra: Purva Bhadrapad

Moon Analysis

Rashi · Nakshatra · Mental Nature

Moon in Mesh. Quick mind, impulsive emotions, courageous spirit. The Moon represents your mind (manas), emotional patterns, mother, and inner sense of wellbeing.

Placement effect: Moon occupies your 3rd house. Affectionate younger siblings, especially sisters mark this placement. The chart promises many short journeys, often related to communication or trade. Creative writing or artistic communication belongs to this picture. Some emotional ups and downs but resilience is strong. This is good for media-related work. (*Chapter 38, verses 6-8*)

Janma Nakshatra (Ashwini): deity Ashwini Kumaras (divine healers); by nature, the native is bold and impulsive. Strong charm comes with a streak of impatience. The nakshatra in which your Moon sits is the most important sub-division indicator in Vedic astrology, shaping personality and Vimshottari dasha sequence.

Mental nature inference: With Moon in Mesh in your 3rd house, your emotional center seeks expression through the affairs of this house. Pay attention to lunar transits to this position every 2.25 days — emotional rhythms intensify then.

Birth Tithi indication: Born in the *Shukla early phase* — *fresh starts, building energy*. This solar-lunar relationship at birth shapes how you cycle between externalizing and internalizing energy.

Navamsha Analysis

D9 · Marriage · Soul Path · Dharma

Navamsha (D9) — The Inner Chart. D9 is the 9th harmonic division. While your D1 Lagna chart shows the outer body and circumstances, D9 reveals the inner self, soul path, marriage partner's nature, and dharmic destiny. After age ~30, D9 themes increasingly manifest.

Marriage indicator (Venus): Venus sits in your 10th house (Vrishchik). The natural professional fields here are career in arts, fashion, beauty, entertainment, luxury, hospitality, design and relationships. The chart promises a high social visibility. Recognition for aesthetic sense comes with this position. May rise to senior positions in creative industries. This is the prime indicator of partnership style, spouse's nature, and relational satisfaction.

Dharma indicator (Jupiter): Jupiter occupies your 3rd house (Mesh); younger brothers and sisters do well. Travels to dharmic places belong to this picture. Writing on philosophical or educational subjects is indicated. Some loss of enthusiasm in worldly pursuits in favor of higher learning. Music, arts, or teaching is favored. Jupiter is karaka of wisdom, gurus, children, and (for women) the husband. Its placement shapes your dharmic trajectory.

7th house (Marriage): No planet occupies the 7th directly. Marriage outcomes flow through the 7th lord's placement and Venus's strength.

Career & Professional Life

10th House • Dashamsha • Vocational Path

Career Indicators in Vedic Astrology. Four pillars shape your professional path: the 10th house (public reputation), its lord, Saturn (karma karaka), and the Sun (authority karaka). The D10 Dashamsha further reveals career-specific patterns.

10th house occupants — direct career imprint:

Venus: The natural professional fields here are career in arts, fashion, beauty, entertainment, luxury, hospitality, design and relationships. The chart promises a high social visibility. May rise to senior positions in creative industries.

Saturn (Karma Karaka): in your 3rd house (Mesh); this counts among the outstanding placements. Hard-working, persistent, and gains success through sustained effort. Younger siblings face challenges or distance. Strong endurance for long projects comes with this position. Engineering, mining, or labor-intensive work succeeds. Saturn shows where disciplined effort yields long-term results.

Sun (Authority Karaka): in your 12th house (Makar). Foreign residence or work in distant lands likely. Expenses on government dealings, charity and spiritual pursuits. Some isolation from father runs through this placement. Eye-related issues in later life are indicated. Hidden enemies in workplace belong to this picture. A spiritual inclination toward solitude comes with this position. Sun shows where you naturally claim leadership.

Mercury (Intellect Karaka): in your 11th house. Mercury governs business, communication, analysis, and trade. Its placement shows the intellectual domain where you excel professionally.

Reading Gochara Transits

Current planetary transits over your natal Moon sign (Mesh). Saturn and Jupiter transits have maximum impact — 2.5 and 1 year respectively. Combine with active Dasha for precise event timing.

Transit Significance for You

How transits work for you. Gochara (transit) results are read primarily from your natal Moon sign (Mesh). The slow-moving planets — Saturn (2.5 yrs/sign), Jupiter (1 yr/sign), and Rahu-Ketu (1.5 yrs/sign) — create the major life chapters, while fast planets trigger day-to-day events.

Saturn's transit (Shani Gochara): Saturn's position relative to your Moon determines major karmic phases. The 4th, 8th, and 12th from Moon are the Sade Sati and Dhaiya periods — times of restructuring, maturity, and karmic settlement. Saturn rewards disciplined effort.

Jupiter's transit (Guru Gochara): Jupiter's transit through the 2nd, 5th, 7th, 9th, and 11th from your Moon is especially auspicious — bringing growth, opportunity, and grace to those houses' significations. Jupiter expands whatever it touches.

Combine transit with dasha: A transit only fully activates when the same planet (or a connected one) is also running in your Vimshottari dasha. This double-confirmation is the key to precise event timing — never read transit in isolation from the active mahadasha-antardasha.

Strongest Months — Ashtakavarga Transit

Sarvashtakavarga · The Sun's Yearly Circuit

How this calendar is built

Classical Ashtakavarga rates each sign of YOUR chart by benefic points (SAV — your grand total is 337 against the standard 337). As the Sun completes its yearly circuit, each sidereal solar month lights up one sign. When the Sun moves through a high-scoring sign, the month tends to open doors; low-scoring signs reward caution and consolidation. These windows repeat every year of your life.

Your Twelve Solar Months

SOLAR MONTH	SUN TRANSITS	SAV POINTS	VERDICT
mid-Apr – mid-May	Mesh	28	Supportive
mid-May – mid-Jun	Vrishabha	27	Supportive
mid-Jun – mid-Jul	Mithun	21	Consolidate, avoid launches
mid-Jul – mid-Aug	Kark	27	Supportive
mid-Aug – mid-Sep	Simha	27	Supportive
mid-Sep – mid-Oct	Kanya	32	Strong — a month to act
mid-Oct – mid-Nov	Tula	27	Supportive
mid-Nov – mid-Dec	Vrischik	34	Strong — a month to act
mid-Dec – mid-Jan	Dhanu	31	Strong — a month to act
mid-Jan – mid-Feb	Makar	21	Consolidate, avoid launches
mid-Feb – mid-Mar	Kumbha	40	Strong — a month to act
mid-Mar – mid-Apr	Meen	22	Mixed — steady work

Reading the months

Your strongest annual windows fall in mid-Feb – mid-Mar, mid-Nov – mid-Dec, mid-Sep – mid-Oct — favour launches, negotiations, and first meetings there. The leaner windows, mid-Mar – mid-Apr, mid-Jun – mid-Jul, mid-Jan – mid-Feb, are better spent finishing, auditing, and resting. For fine timing, overlay these months on the Mudda dasha of the Varshaphal page: a strong month inside a friendly annual lord's period is the year's true green corridor.

Planet Functional Quality

Benefics · Malefics · Yogakaraka for Kumbh Lagna

Planet Functional Quality for Kumbh Ascendant. In Vedic astrology, planets are not absolutely good or bad — their effect depends on which houses they rule for YOUR Lagna. This makes Vedic astrology fundamentally chart-specific.

Rahu & Ketu: Rahu and Ketu's quality depends on their house placement and conjunctions — not Lagna rulership. They are nodal forces of karma rather than house-rulers.

Shodasha Varga — Vimsopaka Bala

Dignity Across the Sixteen Divisional Charts

What this measures

Parashara weighs each planet across all sixteen vargas — from the D1 body of life to the D60 seed of karma — into a single Vimsopaka score out of 20. A planet may look ordinary in the birth chart yet carry quiet varga strength, or the reverse; this table is the classical corrective to first impressions. The Vaiseshikamsa column names the honour a planet earns by holding its own or exaltation sign across many vargas.

Vimsopaka Bala — The Twenty-Point Verdict

PLANET	VIMSOPAKA	GRADE	VAISESHIKAMSA
Jupiter	15.32 / 20	Uttam — excellent	Bhedakamsa (2 vargas)
Mars	14.78 / 20	Shubh — strong	Bhedakamsa (2 vargas)
Moon	14.55 / 20	Shubh — strong	Kusumamsa (3 vargas)
Ketu	13.00 / 20	Shubh — strong	Kandukamsa (5 vargas)
Venus	12.77 / 20	Shubh — strong	Kusumamsa (3 vargas)
Sun	12.32 / 20	Madhyam — average	Kusumamsa (3 vargas)
Mercury	10.90 / 20	Madhyam — average	Kandukamsa (5 vargas)
Rahu	10.42 / 20	Madhyam — average	Keralamsa (6 vargas)
Saturn	9.32 / 20	Needs support	Nagapushpamsa (4 vargas)

For your chart

Jupiter carries the deepest sixteen-fold dignity in your chart — its dashas and transits deliver with unusual reliability. Saturn holds the lightest varga support; its periods reward preparation and remedy more than bold risk. A Vimsopaka above 15 is classically read as a planet that keeps its promises even under affliction.

Health Analysis

Constitution · Vulnerabilities · Preventive Guidance

Health & Vitality in Your Chart. Health flows from three primary indicators: the Lagna (body), the Lagna lord (life-force), and the 6th house (disease & service). Saturn governs chronic conditions; Mars governs acute; Moon governs fluids and emotional health.

6th house occupants (health area): Rahu. These planets' karakas hint at the type of health themes to be mindful of.

Saturn (chronic conditions): in 3rd house, suggesting any long-term physical themes appear in that house's domain (e.g. bones in legs/joints if 11th, speech/mouth if 2nd, etc.).

Mars (acute conditions): in 1st house, indicating where surgeries, inflammations, or sudden injuries may concentrate.

Using Pratyantar Dasha

Pratyantar Dasha (the 3rd level of timing) narrows predictions to windows of just 2–7 days. When the Mahadasha, Antardasha, and Pratyantar lords all align favorably, events tend to crystallize. This level is most useful for muhurta (auspicious timing) and event prediction.

Second-Opinion Timing

Kalachakra · Ashtottari — Cross-Validated Chronology

Why a second opinion

Parashara teaches many dashas, not one. The Vimshottari is the universal clock; the Kalachakra reads time through the signs the Moon’s nakshatra sets in motion, and the Ashtottari runs a 108-year cycle applied under specific chart conditions. This chart satisfies the classical applicability condition for Ashtottari, so its testimony carries full weight here.

Kalachakra Dasha — The Wheel of Time

Sign Period	Begins	Ends	Length
Dhanu	15 Jan 2000	16 Jul 2008	8.5 yrs
Mesh	16 Jul 2008	16 Jul 2015	7.0 yrs
Vrishabha NOW	16 Jul 2015	16 Jul 2031	16.0 yrs
Mithun	16 Jul 2031	16 Jul 2040	9.0 yrs

Tula	17 Jul 2075	17 Jul 2091	16.0 yrs
Vrischik	17 Jul 2091	—	7.0 yrs

Ashtottari Dasha — The 108-Year Cycle

LORD	BEGINS	ENDS	LENGTH
Rahu	26 Feb 1992	26 Feb 2004	12 yrs
Venus	26 Feb 2004	26 Feb 2025	21 yrs
Sun NOW	26 Feb 2025	26 Feb 2031	6 yrs
Moon	26 Feb 2031	26 Feb 2046	15 yrs
Mars	26 Feb 2046	26 Feb 2054	8 yrs
Mercury	26 Feb 2054	26 Feb 2071	17 yrs
Saturn	26 Feb 2071	26 Feb 2081	10 yrs
Jupiter	26 Feb 2081	—	19 yrs

Cross-check for your chart

Vimshottari places you in a Sun Mahadasha with Mercury Antardasha; Ashtottari independently reads the running chapter as Sun; Kalachakra frames the era through the sign Vrishabha. Where two systems name the same graha — or the Kalachakra sign is ruled by it — a prediction made for that period stands on double authority. Where they diverge, read the Vimshottari as the primary clock and the others as texture.

Varshaphal — Annual Timing

Tajaka Year · Mudda Dasha

Your Tajaka Year

The Varshaphal (annual horoscope) begins each year at your Varsha Pravesh — the moment the Sun returns to its exact natal longitude. Your running Tajaka year opened on 01 Jan 2026 and completes on 01 Jan 2027. Within it, the Mudda dasha — the annual Vimshottari — divides the year into nine planetary chapters, the finest classical instrument for month-scale timing.

Mudda Dasha — Year 2026–2027

ANNUAL LORD	BEGINS	ENDS	LENGTH
Ketu	01 Jan 2026	22 Jan 2026	21 days
Venus	23 Jan 2026	24 Mar 2026	61 days
Sun	25 Mar 2026	12 Apr 2026	18 days
Moon	12 Apr 2026	12 May 2026	30 days
Mars	12 May 2026	02 Jun 2026	21 days
Rahu	03 Jun 2026	27 Jul 2026	55 days
Jupiter	27 Jul 2026	13 Sep 2026	49 days
Saturn NOW	14 Sep 2026	10 Nov 2026	58 days
Mercury	11 Nov 2026	01 Jan 2027	52 days

Reading the annual chapters

Each Mudda period concentrates that planet’s natal promise into a few weeks. Where the annual lord is also strong in your birth chart — see the Shadbala and Vimsopaka tables — its window is a season to act; where it is delicate, a season to consolidate. Cross-read these dates with the Vimshottari sub-periods earlier in this section: when both instruments point to the same planet, timing confidence is at its highest.

◆ Present

Interpretation

Mars Placement

Mars in the 1st house creates a strong, assertive personality with high drive. Relationships may experience tension due to dominant energy.

Remedies & Guidance

Classical Remedies

1. Kumbh Vivah — symbolic marriage to a clay pot or tree (Peepal/Banana) before the actual marriage. 2. Marriage after age 28 significantly reduces Manglik effects. 3. Partner also being Manglik cancels the dosha. 4. Hanuman Puja every Tuesday — chanting Hanuman Chalisa 11 times. 5. Wearing Red Coral (Moonga) in gold on the ring finger (consult an astrologer for suitability).

Kaal Sarp Dosha

Rahu-Ketu Axis — Karmic Patterns

✦ KAAL SARP DOSHA STATUS

☾ Rahu H6 • ☿ Ketu H12

Type: Not Applicable

Kaal Sarp Dosha is NOT present in this chart.

✓ Absent

Understanding Kaal Sarp

All 7 planets are NOT contained within the Rahu-Ketu axis in this chart. Kaal Sarp Dosha is absent — planetary energies are distributed across the full chart.

Rahu-Ketu Axis Reading

Rahu H6 — Ketu H12

Rahu in the 6th house drives ambition toward its domain — this is where you are meant to grow beyond your comfort zone. Ketu in the 12th house represents past-life mastery — you carry deep wisdom in its domain but may feel detached from its material rewards.

Planetary Remedies

Mantra · Gemstone · Charity · Practice

Priority remedies for your chart. Based on planetary positions, the following grahas require strengthening: Sun, Saturn, Rahu. Address these one at a time, starting with the most chart-active (current MD/AD lord first if among the list). Gemstone caution: for planets that are functional malefics for your Lagna (see the Planet Functional Quality page), prefer mantra, charity and observance — wear their gemstone only after a personal consultation, since a gem amplifies whatever the planet does in YOUR chart.

Sun remedies:

Mantra: Om Suryaya Namaha — 108 x 7 days, starting on Sunday.

Gemstone: Ruby (Manik), gold, ring finger.

Charity: Wheat, jaggery to a temple priest.

Fast/Observance: Light observance on Sunday.

Saturn remedies:

Mantra: Om Shanaye Namaha — 108 x 23 days, starting on Saturday.

Gemstone: Blue Sapphire (Neelam), iron, middle finger — test first.

Charity: Black sesame, iron, oil to laborers.

Fast/Observance: Light observance on Saturday.

Rahu remedies:

Mantra: Om Rahave Namaha — 108 x 18 days, starting on Saturday.

Gemstone: Hessonite (Gomed), silver, middle finger.

Charity: Mustard oil, leather, blue cloth.

Fast/Observance: Light observance on Saturday.

Important note: All gemstone recommendations require in-person consultation with an experienced astrologer before wearing — incorrect gemstones can produce adverse effects. Mantras and charity have no contraindications.

Lucky Numbers & Attributes

Numbers · Colors · Days · Directions

Lucky Profile from Your Chart. Vedic astrology derives auspicious numbers, colors, days, and directions from your chart's strong planets — particularly your Lagna lord, Moon, and current Mahadasha planet.

From the Moon (Universal):

Numbers: 2, 7

Colors: White, Silver

Day: Monday

Moon-related lucky attributes apply universally for emotional and mental projects.

From your current Mahadasha planet (Sun):

Numbers: 1, 4

Colors: Orange, Gold

Day: Sunday

Direction: East

These are particularly auspicious during the current life period.

Gemstone Recommendations

Vedic Ratna Shastra — Planetary Strengthening

Vedic Gemstone Therapy (Ratna Shastra). Gemstones amplify the energy of the planet they correspond to. For YOUR chart, the primary recommendation flows from your Lagna lord — strengthening your overall vitality and life-path.

SECONDARY — for your current Mahadasha lord (Sun):

Gem: Ruby (Manik)

Metal: Gold

Finger: Ring finger

Weight: 3-5 carats

Activation: Sunday sunrise

Important precautions: Gemstones must be natural, untreated, and tested for individual compatibility. Saturn and Mars gemstones especially require a 3-day skin test before permanent wear. Consult an experienced astrologer before purchase — incompatible stones can produce adverse effects.

Rudraksha & Mantra

Vedic Bead Therapy & Planetary Remedies

Rudraksha — Sacred Beads of Lord Shiva. Each mukhi (face) of a Rudraksha corresponds to a specific planetary or divine energy. The right Rudraksha for YOUR chart is determined by your Lagna lord and current Mahadasha planet.

SECONDARY — for current Mahadasha lord (Sun):

Type: 12 Mukhi

Benefits: Expect the themes of leadership, authority, vitality and self-confidence.

Wear method: Can be combined with primary Rudraksha on the same thread.

UNIVERSAL — 5 Mukhi (recommended for all):

The 5 Mukhi Rudraksha represents Lord Rudra in his Kalagni form and is suitable for everyone regardless of chart. 108-bead mala of 5 Mukhi is the most powerful general protection and meditation tool.

Mantra integration: Combine your Rudraksha wear with daily chanting of Om Namah Shivaya (108 times) or the Maha Mrityunjaya mantra for full benefit.

• • •

The Three That Matter Most

Arudha Lagna — Mithun

How the world PERCEIVES you — your public image and material standing, as distinct from who you inwardly are (the Lagna). Jaimini treats the AL as the seat of worldly reputation. Your AL falls in Mithun: the outer world reads you through Mithun's qualities, whatever your inner Lagna nature. When the AL and Lagna differ in character, people often feel 'seen wrongly' — knowing this gap is itself the remedy.

Karmarudha (Aro) — Kumbha

Your professional IMAGE crystallises through Kumbha. Planets transiting or aspecting this sign colour how your work is received publicly — worth watching alongside the 10th house.

Upapada Lagna (UL) — Mesh

Jaimini reads the spouse and the texture of married life from the UL. Yours falls in Mesh; its lord's strength and the 2nd from UL describe the endurance of the union. A matching judgment should always weigh this alongside Guna Milan.

Reading Arudhas

Arudha = 'the mount', the reflected image. Where houses show what IS, arudhas show what APPEARS — reputation, perception, the social mask. Both are real; wisdom is knowing which one a given situation is responding to.

Important Information About This Reading

Nature of This Reading

This kundli is prepared using Swiss Ephemeris calculations under the Lahiri Ayanamsha system — the most widely accepted standard in classical Vedic astrology. All planetary positions, dashas, and divisional chart calculations have been computed with precision to the minute of arc.

For Guidance — Not Prediction

Astrology offers a map of tendencies, not a fixed destiny. The planets indicate energies and probabilities — they do not compel action. This reading is intended as a tool for self-understanding, timing awareness, and conscious decision-making. Free will operates within, alongside, and sometimes in spite of cosmic patterns. Difficult periods are opportunities for growth. Favourable periods require effort and right action to manifest fully.

Remedies & Recommendations

Gemstone, mantra, and ritual recommendations in this document are drawn from classical Vedic texts (Brihat Parasara Hora Shastra, Jataka Parijata). They are offered as traditional practices that may support planetary energy — not as medical, financial, or legal advice. Please consult qualified professionals for decisions in those domains.

Confidentiality

This document is prepared exclusively for the named individual. Redistribution, reproduction, or commercial use without explicit written consent from Dr. R.P. Sharma is not permitted. This reading is valid for the date of generation.

"May this reading bring clarity"

~ A WORD FROM DR. SHARMA ~

Dr. Sharma often says that reading a chart well — like medicine, or even learning to drive — asks for three things to come together:

Education

VIDYA

A Ph.D. and Acharya in Jyotish —
the shastra studied in depth.

Experience

ANUBHAVA

45+ years at the desk, since 1979 —
thousands of charts read.

Intuition

PRATIBHA

The instinct only long practice gives
— reading what a chart implies.

This report is computer-generated, with astronomy of Swiss-Ephemeris precision. But a chart is only a map. Its true meaning — the weight of each yoga, the timing inside a dasha, the one remedy that matters — is read by a qualified astrologer in whom these three meet.
